Media press conference
- Wednesday, June 3 at
8:00- Talent Show
- Friday, June 5 at 7:30-
Boys State Celebration
at the union.

What happened to Seitz?

By the KSBS media team

If anyone of you do not know what seitz is, it is the 5th county for boys state. Everyone is saying that the amount of staters is the reason for seitz abrupt disappearance but us at the media team think differently. We think that a specific county kidnapped seitz county. This county has been extremely hostile towards the other counties via their jodies and chants. Out of respect for their status at boys state, we can not mention any counties directly.

It runs in the family

Jack Browns little brother, Ben Brown, who is also in eisenhower, is taking charge like his big brother at boys state. Ben recently did a interview with Cedric Geotz. In this interview, he stated that he feels as the county has a low unemployment rate and low income but feels as the county has a good leadership base and feels as the county has good ideas with Nationalist treasurer, Maddox Harr agrees with him. Both their parties feel as if they want to increase economic growth by creating taxation brackets and improving health insurance while also creating a more civilized and agreeable ability to debate in the legislative, judicial and executive branches. Maddox Harr is planning on running for governor

Powell Simulation

“Powell County’s agricultural industry has experienced an unexpected development. In the early morning on June 1st, local farmer Curtis was plowing his corn field when his equipment unexpectedly struck a substantial oil deposit. Agricultural experts from the area note that Curtis’ corn crop this year measured an astonishing average height of approximately six or seven inches tall, leading many to suspect that the field’s nutrients may have been drained due to the oil.

“In similar news, neighboring farmer Doherty of Powell county reported the opposite problem. Earlier today, while inspecting his exceptionally tall corn crop, Doherty discovered a substantial natural gas reserve beneath his property after a sudden gas spout erupted from the ground.

“As the sitting Secretary of the Department of Natural Resources, I would recommend that the county commissioners and city councilmen in Powell county direct their resources to focus on a new oil and gas based economy. Economist professionals in the area have noticed an uptick in the amount of oil and gas businesses due to this news. Please plan accordingly”

*Johannes Barnes, PhD.
Secretary of the Department of Natural Resources*

Joke Of The Day:
*Why do finnish warships have
barcodes?
So they can scandanavian.*

Bill Clinton is one of the most recognizable boys stater’s. Clinton attended the 18th session in Arkansas and later went to Boys Nation. Clinton was elected as the 42nd president leading the country from 1993 to 2001. One of Bill Clintons famous quotes is "We all do better when we work together. Our differences do matter, but our common humanity matters more."
